EXPERIENCE

Backend Software Engineer · Papernest

Mar 2024 – Present · Paris, France

Backend engineer on a squad building papernest's in-house CRM, the Salesforce replacement used by 500+ sales ops across multiple countries in Europe and Africa to handle 2k+ inbound calls per day and 10k+ contracts per month.

- DDD multi-service architecture progressively replacing the legacy Salesforce setup.
- 500+ sales ops migrated across multiple countries in Europe and Africa; 80% adoption two weeks after launch.
- Integrations with major energy providers for reliable contract data synchronization across the subscription workflow.
- Salesforce subscription phased out, cutting €200k+ in yearly tooling spend.
